WEDNESDAY, SEPTEMBER 26, 1744.

Extract of a Private Letter from the Spaniſh *Camp before* Coni, *in* Piedmont, *dated* Sept. 15, 1744.

'IN the Night, between the 12th and 13th, we open'd the Trenches before this Place, and had an Officer and four Soldiers ſlightly wounded; and the French had two Soldiers wounded. We ran our Trenches 530 Yards, and puſh'd our Parallel within 200 Yards of the Outworks, thro' very ſtrong Ground. The Noiſe of the Tools having alarm'd the Enemy, drew upon us a moſt dreadful Fire on their Part. At Two in the Afternoon they ſallied from a Redoubt on their Left, in order to attack that on our Right, in which there was a conſiderable Breach; becauſe we were not able to perfect that Work in the Night, and their Fire was ſo prodigiouſly warm, that we could not do it in the Day. Two Companies of the Grenadiers of Kalbermatten and Schulemberg, ſuſtained by ſome other Troops, forc'd the Redoubt, and repuls'd two Companies of Grenadiers of the Regiment of Gallicia. The Reinforcement of the Enemy approach'd in the mean time, making a moſt conſtant and dreadful Fire on our Right; as did alſo four other Battalions, that were poſted in their firſt cover'd Way. M. de Cagegal, Marſhal du Camp, immediately repair'd thither with the Brigadier Marquis Tripuxi, with the Regiment of Merida, which was in the Trenches, with all the Grenadiers and Pickets. They drove the Enemy from the Redoubt, with their Bayonets at the Head of their Fuzees, and purſued them to their very Works. We had a Sub-Lieutenant, and 12 Soldiers kill'd, and about 60 wounded; among whom were 12 Officers. The French, by their being at a Diſtance, had no Share in the Action; but they had a Share, however, in the Loſs; for during the whole time it laſted, the Enemy diverted them with a Seranade of Cannon and Bombs, by which they had fourteen Soldiers wounded. The Marquis de las Minas, who was every where, had a Horſe kill'd under him. Yeſterday, and to Day, we have continued our Works without any Loſs, and we find ourſelves now within 70 Yards of their Outworks. We have already began to batter both their cover'd Ways; at preſent we employ ſix Pieces of Cannon, each carrying a Ball of 12 Pound Weight, on the other Side of the Stura; To-morrow, we hope to make Uſe of our Mortars, all our Batteries being already in order. The King of Sardinia remains ſtill at Saluces, and is retrenching his Camp with Faſcines of Gabions. Our Detachments are continually employ'd in obſerving him, and are poſted, for that Purpoſe, at Sarantana, and at Pentalo, where the Duke of Arcos died, Yeſterday, of an Apoplexy, which ſeized him the Day before.'

Extract of another Letter from the French Camp, *before the ſame Place, dated* Sept. 16, 1744.

'We continue to puſh the Trenches with the greateſt Vigour, and are already within eight Parallels of the Place. The Enemy's Fire is as briſk as can be. The Day the Trenches were open'd they fir'd above 800 Shot, which incommoded our Workmen very much. They have ſince made a Sally upon the Spaniards, in which, at firſt, they had ſome Succeſs; but the Prince of Conti having caus'd a Body of Troops to advance, they were obliged to retire. This Morning we began to fire upon the Place with 32 Pieces of Cannon, which have beat down ſome Steeples. About Noon we were reinforc'd by the Regiments of the Queen, Provence, Auxerrois, and Traverſe; we expect, in a Day or two, four more. All the Deſerters aſſure us, that the Gariſon of Coni conſiſts of 4000 Regular Troops, and of 1500 Townſmen, who have taken Arms.'

Ratisbon, September 24. The Auſtrian Army under the Command of Veldt-Marſhal Count Traun, arriv'd Yeſterday from Burglengenfeldt and Regenſtauff, at Schwandorff. They are to continue their Route by long Marches to Waldtmunchen. Their Artillery, which is very fine, and conſiſts of 30 Pieces of heavy Cannon, and 40 Copper Pontons, ſet out, the Day before Yeſterday, from our Neighbourhood, for Schwandorff, with a vaſt Number of Waggons laden with Proviſions, Ammunition, and Baggage, under a very numerous Eſcort. The Generals St. Ignon, Brettlach, Schulembourg, the Prince of Wolfenbuttle, and other Officers of Diſtinction, particularly M. de Feurſtein, Col. of Artillery, took, Yeſterday the ſame Route, as did alſo the Gariſon of Stadtamhoff; the Governor of which, caus'd all the Proviſions he could not carry away, to be thrown into the Danube. They have likewiſe pulled down all the Ovens they had there, ſunk all their Boats to the Bottom, and have not only broke down the Bridges upon the Danube, but alſo on the Naab, the Regen, &c. which ſurprizes us the more, becauſe General Baron Berenclau remains in Bavaria, with an Army of 34,000 Men, in order to diſpute, with the Imperialiſts, the Entrance into that Electorate. The Earl of Holderneſs, Ambaſſador from the King of Great Britain to the Republick of Venice, arrived here the Day before Yeſterday; and to Day, that Lord continues his Journey, by Water, to Vienna, in order to go from thence to Venice. His Excellency was made Priſoner in the Neighbourhood of Nuremberg, by the Partizan Geſchrey, who, afterwards ſet him at Liberty. This Partizan, who leads the Van of the Imperial General de St. Germain's Corps, is very ſpeedily expected at Stadtamhoff. Yeſterday the Baron de Plettenberg, the Queen of Hungary's Miniſter, receiv'd Advice by an Expreſs, that the City of Prague, after having ſuſtained a Bombardment of ſome Days, had capitulated on the 16th, and the Gariſon ſurrendered Priſoners of War; and that General Count Bathiani, who was in the Neighbourhood of Konigſhall, had retired from thence with his Forces, in order to join Veldt-Marſhal Traun.

Manheim, September 26. The Great Chancellor, Baron de Halberg, died Yeſterday, after a tedious Indiſpoſition. Fifty heavy Cannon were ſent this Week from Landau and Fort Lewis, to the Camp before Fribourg. The Imperial Army arriv'd Yeſterday at Nordlingen. The Chevalier de Belleiſle having reduced all the Diſtricts or Cantons belonging to the Queen of Hungary in Swabia, and obliged them to do Homage to the Emperor, march'd on the the 18th to join the grand Army in the Briſgau.

Cologne, Sept. 29. The Palatine Troops which march'd from the Countries of Juliers and Bergue to join the Imperial Army, will paſs the Moſelle this Day, and To-morrow at Winnengen. The Abbot of Steinfeldt was ſeiz'd Yeſterday with an Apoplexy while he was ſaying Maſs, and died immediately.

ANTI-SYPHILICON.

THE only short and most infallible Cure in the Universe for the Venereal Disease, from the slightest Infection to the most extreme and deplorable Degree of it, even when the Blood and Juices are thoroughly contaminated with its malignant Virus, and the very Bones are affected with it.

Fresh Infections, call'd Claps, with all their attendant Symptoms, tho' ever so severe, are entirely carried off by it in a few Days, and so as effectually to prevent the Blood and Juices from being tainted with any remaining Relicts on one Hand, or a seminal Gleet or Weakness to happen on the other.

And the most inveterate Degree of the French Illness, attended with Nocturnal Pains, universal Breakings out, and all the other most exasperated Symptoms, are soon overcome by it, and effectually and much more safely cured than by Salivation, Inungation, or any other Method whatever, and in so easy and pleasant a Manner, without impairing Strength, or occasioning any Inconvenience, as loudly to bespeak it the only apposite Remedy or true Venereal Antidote in the World; and this some Thousands have to their great Joy experienc'd.

It is pleasant to take, occasions no Sickness or Disorder, nor requires Confinement; but may be taken, and the Cure be accomplish'd, without the Knowledge of the nearest Friend.

Those who suspect they have received an Injury, may, by only a Dose or two of it, be perfectly freed from all Apprehensions; for it suffers no lurking Venom to lie hid in the Body, but wholly extirpates it Root and Branch, in a gentle, easy, and most effectual Manner.

All such likewise as doubt they have some remaining Relicts of former Injuries, may by a few Doses of it entirely free themselves from all Suspicion of that Kind; for it admits of no Foulness, Corruption, or Putrefaction whatever, to remain in the Fluids, or to adhere to the Solids; and on this Account, in all scorbutick, scrophulous, and even leprous Eruptions or Foulnesses of the Skin, Glandulous Swellings and Impurities of the Juices, it does more by one Dose, than any other Medicine yet known can by ten.

The Price of this most Noble Anti-Syphilicon is but Six Shillings a Pot, which, considering its extraordinary Efficacy, one Pot only being sufficient in most Cases to accomplish the Cure, is not a tenth Part of its Value; and is appointed by the Author to be had only at Mr. Raffald's Toyshop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up with a Book of Instructions, by the Perusal of which, all Persons who were ever affected with any Degree of the Venereal Disease, may perfectly understand their own Condition, and certainly know when, and when not, the Venereal Poison is entirely rooted out of their Bodies.

Note, Ask only for a Six Shilling Pot for the Scurvy.

LONDON: Printed for M. Cooper, at the *Globe* in *Pater-Noster-Row*.
